

Brigade Woods — Ganesha Chathurthi 2026

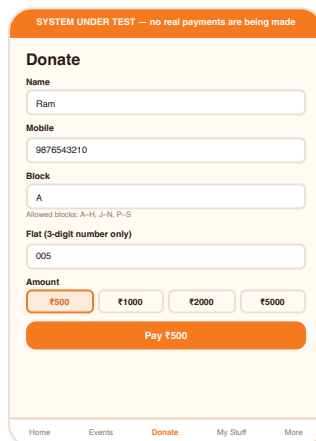

QUICK GUIDE

Donate, see events, register for the community dinner, check your own registrations, and report an issue if something breaks — all from your phone, no account or app download needed. A saffron banner reading “SYSTEM UNDER TEST” may appear while things are still being finalized — it just means no real money is charged yet. Payments are made by scanning a UPI QR code in your own payment app (GPay, PhonePe, Paytm, etc.); a volunteer verifies each payment before your receipt or token is issued.

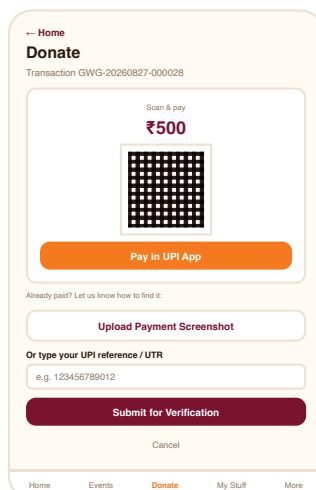

1. Home

- Open the site link — no login or app download needed.
- See the festival name, total collected so far, and upcoming events at a glance.
- A scrolling banner up top carries the latest festival announcements.
- Tap **Donate Now** to contribute, or **View All Events** to browse the schedule.
- Stuck on something? **Need help?** on this page jumps straight to this guide.

2. Donate

- Fill in your Name, Mobile, Block (a single letter) and Flat (3-digit) number.
- Pick a quick amount or type your own, then tap **Pay**.
- Scan the UPI QR shown on the next screen — or tap **Pay in UPI App** — using GPay, PhonePe, Paytm or any UPI app.
- Already paid? Upload a screenshot of the payment (we'll try to read the reference automatically) or type the UPI reference/UTR yourself, then tap **Submit for Verification**.
- A volunteer verifies the payment; your receipt appears under **My Stuff** once it's confirmed.

2b. Scan & Pay

- This same “Scan & Pay” screen is used for **both donations and paid dinner meals** — the steps are identical either way.
- Nothing is marked paid just by tapping a button here — a volunteer independently checks your reference before confirming.
- You don't need to keep the screen open — come back to **My Stuff** anytime to check the status, or tap **Cancel** to abandon the transaction.

Home Events Donate My Stuff More

3. Events

- Browse all festival events with date, time and venue.
- Open an event and tap **Register** if it needs sign-up — enter participant name, age, and mobile.
- Registered? You'll find your entry under **My Stuff**.
- Every event page has a ← **Events** link back to the schedule, so you're never stuck.

4. Community Dinner

- Once dinner registration opens, choose your day and enter adult/child counts.
- **Free meals** get an instant digital QR token — no payment step.
- **Paid meals** use the same Scan & Pay flow as Donate: pay via UPI, then submit your reference for a volunteer to verify.
- Your token appears under **My Stuff** as soon as it's confirmed — show that QR at the dinner counter to be served.

5. My Stuff

- Enter your mobile number to look yourself up — no password needed.
- See all your donations, receipts, event registrations, dinner tokens and volunteer status in one place.
- Every donation status is shown here too — waiting for verification, confirmed, or cancelled.
- Details wrong or stale on this phone? Go to **More** → **Clear My Saved Details** to reset what this browser remembers, then look yourself up again.

Home Events Donate My Stuff More

6. Volunteer Sign-Up

- From Home or More, tap **I Want to Volunteer** to sign up.
- Fill in your details and pick the areas you'd like to help with.
- Your application is submitted as **Waiting for admin's approval** — a super admin activates it before you get volunteer access.

7. Report a Bug

- Something not working right? From **More**, tap **Report a Bug**.
- Describe the issue in a line or two and optionally attach a screenshot.
- Tap **Submit & Open WhatsApp** — your report is saved first, then WhatsApp opens with the details ready to send straight to the festival tech team.
- Your report is tracked either way, even if you don't end up sending the WhatsApp message.

8. Need Help?

- This guide and **Report a Bug** are always one tap away — Home or More → **Need help?**
- **Clear My Saved Details** under "This Device" forgets the name, mobile, block and flat this browser remembers for you — it doesn't affect any donation, registration or dinner token you've already submitted.
- Every sub-page — event check-in, dinner counter, settings, reports and more — has a back link at the top, so you're never more than one tap from where you started.
