Notes

- Figures are pulled live from the portal on 27 Sep 2026 — the same totals shown on the resident Home page. Individual donor names, flats and payment references are never shown here, by design.
- Sponsorships (₹10,000) are recorded on the same Donations ledger under a separate block code and are excluded from the by-block breakdown and family count above — they're not a household contribution.
- Only successfully verified receipts and approved payments are counted; anything still under volunteer review is excluded from both totals.
- Ganesha Hundi (at-pandal) offerings are counted and entered as a regular donation once collected, so they're included in Total Receipts above like any other contribution — not broken out as a separate line.
- Payments are shown as one approved total; the itemized expense-by-expense ledger is visible to volunteers holding the Finance permission.
- Donation goal was ₹2,50,000 — receipts reached 109% of goal.
